

As an existing customer of ClayMar Electric, we wanted to let you know about an annual generator service package that we have just developed. Regularly scheduled maintenance will extend the life of your generator and ensure it will be in working order when you need it. Since the generator service will be completed each spring, we hope this will make life easier for you with one less thing to look after.

The annual generator maintenance package includes:

- ❖ Oil change with filter and synthetic oil
- ❖ New air filter
- ❖ New spark plugs
- ❖ Valve inspection and adjustments as required
- ❖ Inspection of battery condition (Battery will be replaced, if necessary, for an additional cost.)
- ❖ Testing of operation of unit
- ❖ Confirmation of service work completed (text or email)

Cost: \$220 plus HST

Notes: Additional charge of \$130 plus HST if the battery needs replacing
Extra mileage charge applies if further than 50km from the shop.

- We will send out a reminder, but no scheduling is necessary as this service will be automatically provided each spring.
- This maintenance program can be cancelled at any time.
- If you have any questions, please call/text us at 705-380-1233 or claymar.electric.ltd@gmail.com

If you are interested, please sign and date below or send an email confirmation. We appreciate your business and look forward to continuing to serve you! If you know of anyone else who might be interested in this service, we would appreciate it if you would pass on our name to them.

Derek Martin, Master Electrician

I authorize ClayMar Electric to provide annual service to my generator:

Name: _____ Date: _____

Address: _____
